

Company Factsheet

About	Tuticorin Alkali Chemicals and Fertilizers Limited (TFL) produces all grades of Soda Ash and coproduces Ammonium Chloride Fertilizer. It is located at Tuticorin, Tamilnadu contiguous to SPIC Fertilizer Plant. The major raw materials are Ammonia (imported through Tuticorin Port), Carbon dioxide gas (separated from boiler flue gas) and the locally produced Salt. TFL is the only producer of Soda Ash in the South India. It has adopted an eco-friendly dual process, co-producing Ammonium Chloride Fertiliser.
